Art Unit: 1745

1. The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches the claimed fuel cell stack including a plurality of thin fuel cells where each of the thin cells includes a water transport plate defining water management channels and a plurality of thick fuel cells where each of the thick cells includes a combined water management and coolant water transport plate that defines cooling channels wherein at least one thin fuel cell is located adjacent each thick fuel cell and where the water management channels have a depth parallel to the longitudinal axis of the stack that is at least four times less than a depth of the cooling channels. The prior art of record does not disclose the plurality of the thick and thin cells in the above noted configuration nor does the art disclose the relationship between the size of the water management channels vs. the size of the cooling channels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 571-272-1287. The examiner can normally be reached on Monday-Thursday from 6:15-3:45.
